IB Math SL QuestionBanks : Free Download, Borrow, and

This is binomial because the outcomes are independent, it is either red or not red, the probability of success is .5, and the number of trials is 5. To solve binomial distributions use the following equation: $n C k (p)^k (1-p)^{n-k}$ where n is the number of trials, k is the number of successes, and p is the probability of success.

IB Mathematics SL/Statistics and Probability - Wikibooks

IB Math SL and IB Math HL are two of the toughest classes in the IB curriculum. It's no surprise if you need a little extra help in either class. I've compiled this article of the best free online materials for IB Math SL/HL so you can get all the IB Math notes you need in one place.
