Quantified self, also known as lifelogging, is a specific movement by Gary Wolf and Kevin Kelly from Wired magazine, which began in 2007 and tries to incorporate technology into data acquisition on aspects of a person's daily life. People collect data in terms of food consumed, quality of surrounding air, mood, skin conductance as a proxy for arousal, pulse oximetry for blood oxygen level, and ...

One of the most important aspects when planning your self build or renovation/extension project is working out how much it is going to cost. There are, however, many variables that can significantly alter build costs beyond the average, which could prove potentially disastrous for someone working to a limited budget.
